REASONS FOR ALLOWANCE

Allowable Subject Matter

1. Claims 1-21 and 38-47 are allowed over the prior art of record. Previously rejected Claims 22-37 have been Canceled.
2. The following is an examiner's statement of reasons for allowance: The Applicant has canceled previously rejected claims 22-37, and **filed a Terminal Disclaimer** in view of the Double Patenting rejection of claims 1-21. New claims 38-47 are directed towards the allowable subject matter as overcome by the Terminal Disclaimer. Independent claims 1, 38, and 45, distinguish over Sim, who fails to teach or suggest the Applicants claimed invention. Specifically the feature in the Applicant's claims 1, 38, and 45, comprising an action control setup interface associating the set of actions in the data structure to the plurality of controls of the user input device based on one of the application genre having a set of actions comprising semantics of said application genre. Sim teaches of a method for mapping an input devices controls with an application system but fails to teach of said semantic and genre scheme within said action control interface. Therefore said features in combination with the other limitations of the above independent claims are allowable over the prior art of record.
3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
